PEASE BELLEVILLE DELETE

Mar. Introduction

Surveyor and Public Health Importor

Health Office, 4 St.John's Avenue, BRIDLINGTON.

October, 1970

To the Chairman and Councillors Urban District of Driffield.

Mr. Chairman, Lady and Gentlemen,

I have pleasure in presenting the Annual Report for 1969.

The Registrar General's figure for the mid-year population was 6,940, an increase of 10 compared with last year. There were 136 live births and 135 deaths compared with 90 births and 147 deaths in 1968. The adjusted birth rate of 20.4 per thousand population compares with the national rate of 16.3 per thousand. The crude death rate is very high owing to the large number of aged persons in the population, but the adjusted rate of 11.1 per thousand population is slightly below the figure for England and Wales.

The causes of death follow the expected pattern, with diseases of the heart and circulation and cancer predominating. Nearly one third of the death were due to two diseases known to be associated with cigarette smoking, namely lung cancer and ischaemic heart disease. There were 4 deaths of infants under one year.

The sanitary circumstances of the area changed little during the year. Water was supplied by the East Yorkshire (Wolds Area) Water Board and was satisfactory in quantity and quality. Sewage continued to be treated at the Riverhead Sewage Works.

I wish to draw the attention of the Council to the section of the report concerning food hygiene. There are 64 food premises in the town, but it was only possible for the Public Health Inspector to pay a total of 61 visits of inspection. Few delivery vehicles were inspected, and no visits for inspection of poultry were made to the two poultry processing premises. These are serious and potentially dangerous, gaps in the public health service and should concern every member of the Council. I am not criticising the Public Health Inspector. He carries out as much of this work as is humanly possible. Adequate coverage of food hygiene depends on the provision of adequate staff, for which the Council is responsible. The Council must decide whether they are prepared to accept the present unsatisfactory state of affairs.

In presenting this Report I would like to express my thanks to Mr.Barker and the staff for their work and help during the year, and also to the Chairman and Members of the Public Health Committee for their constant interest and support.

I am,

Yours faithfully,

R.SCHOFIELD.

Medical Officer of Health.

To the Chairman and Compellions Urban Masseton of Delification

Mr. Chargons, Lody and Genelessen,

I have pleasure in presenting the Amount Deport for 1969.

The Registrar Consequed with into year. They were 156 live pirties to the algorithm of 10 compared with last year. They were 156 live pirties at 135 deaths compared with 90 births and 167 deaths in 1963. The adjusts of 20.0 per thousand yequinties compared with the adjusts of 20.0 per thousand. The crust court court for the very high owing to the large managed returns in the adjusts of the adjusts of 11.1 per thousand returns an alignity below the figure for England and Walter.

The remove of death follow the expected entern, with diseases of the feet and entre of the feet and entre of the feet and entre of the feet and the feet at the feet at the feet and the feet at the feet at the feet at the feet and the feet at the feet at

GENERAL PROVISION OF HEALTH SERVICES FOR THE DISTRICT

HOSPITAL SERVICES

The Hospitals serving the District age as follows:-

East Riding General Hospital

This hospital is under the East Riding Hospital Management Committee and admits acute general and geriatric patients. Out-patient facilities include clinics for medicine, surgery, orthopaedic surgery, gynaecology, paediatrics, oto-laryngology, chest diseases, ophthalmology, psychiatry, dermatology, radiotherapy and diabetic.

Northfield Hospital

Under the East Riding Group Hospital Management Committee this hospital admits patients suffering from chest diseases.

Castle Hill Hospital, Cottingham

All cases of infectious diseases in the District requiring hospital care are admitted to this hospital which is in the Hull "B" Group Hospital Management Committee.

Miniature Mass Radiography

The Miniature Mass Radiography Unit of the Leeds Regional Hospital Board visited the Cross Hill Car Park on the second and fourth Mondays in each month from 10 a.m. to 10.30 a.m. 259 persons were examined during 1969.

NURSING HOMES

There are no private nursing homes in the District.

NATIONAL ASSISTANCE ACT, 1948

Part III Accommodation

Accommodation for 40 elderly persons is provided by the County Council at the Limes, Driffield. Wolds House ceased to operate as a Home for the aged in March, 1969 and the patients in there at the time were transferred to other East Riding County Council Homes.

Section 47

It was not necessary to take proceedings under this Section during the year.

LOCAL HEALTH AUTHORITY SERVICES- NATIONAL HEALTH SERVICE ACT, 1946

Infant Welfare Clinic

An infant welfare clinic is held at the Victoria Road Clinic each Tuesday afternoon from 2 p.m. to 4 p.m. A Health Visitor is in attendance at each session of this clinic to advise mothers on the care of babies and young children, and a doctor is also in attendance on the first Tuesday of each month.

Domiciliary Midwifery Service

Three Nurse/Midwives serve this District. One resides above the Victoria Road Clinic, and two are living in private residence.

Health Visitors

Two Health Visitors carry on work on the District. Their office is at the Victoria Road Clinic, Driffield (Telephone Number 3158)

Home Nursing Service

This service is run in conjunction with Domiciliary Midwifery Service as detailed above.

Ambulance Service

The County Council's Ambulance Station is situated on the Victoria Road, Driffield (Telephone Number 3109)

Domestic Help

Home Help Service which is rendered in the District is administered from County Hall, Beverley and all applications for this service are dealt with by the Home Help Organiser (Telephone Number Beverley 881281)

LOCAL EDUCATION AUTHORITY - SCHOOL HEALTH SERVICES

Routine medical inspections are carried out of all children attending Local Education Authority Schools in the District. In addition the following facilities are provided at the Victoria Road Clinic, Driffield:-

Speech Therapy Clinic One session per week.

OTHER LOCAL AUTHORITY SERVICES

Buckrose Health Divisional Co-ordinating Committee.

Once every two or three months a Co-ordinating Committee, under the aegis of the County Council, meets in Bridlington to co-ordinate the work of Officersin the District who are concerned with the welfare of children. The primary objects of the Committee are the prevention of cruelty to children in their own homes and the prevention of break-up of families.

On the Committee are representatives of the County Children's Department the County Health Department. the School Welfare Department, the County Welfare Department, the Housing Managers of the District Councils, the Department of Health and Social Security, the National Society for the Prevention of Cruelty to Children, the Women's Royal Voluntary Service, Probation Officers and a Marriage Guidance Counsellor. Representatives of other organisations are co-opted from time to time as the need arises. Your Medical Officer of Health in his capacity as Divisional Medical Officer takes the Chair of the Committee.

PUBLIC HEALTH LABORATORY SERVICE

Specimens for bacteriological examination are sent to the Public Health Laboratory of the Medical Research Council at Hull.

VOLUNTARY ORGANISATIONS

British Red Cross

The British Red Cross Society, acting as agents for the County Council, provide a service for the loan of nursing requisites which may be needed for temporary periods for sick persons being nursed in their own homes. In the Urban District the Depot for these requisites is:-

Mrs. Buxton, 44 St. John's Road, Driffield.

Family Planning Association

The Family Planning Association hold a clinic on the second Thursday in each month from 7 p.m. to 8 p.m. at the Driffield Clinic, Victoria Road Clinic, Driffield.

Cervical Cytology.

Cervical Cytology sessions were held at the Victoria Road Clinic, Driffield, as required. These sessions were organised by the County Council

National Society for the Prevention of Cruelty to Children

The Driffield Urban District lies within the North East Yorkshire Branch of the National Society for the Prevention of Cruelty to Children and cases requiring the services of the Society were visited by Inspector Fitton working from Scarborough. Inspector Fitton's work is much appreciated by those of us in the area concerned with child welfare.

Sanitary Circumstance of the Area compiled by the Surveyor & Public Health Inspector

WATER SUPPLY

Weekly routine samples from the various sources supplying the town are taken by the East Yorkshire (Wolds Area) Water Board, and submitted for bacteriological examination. The water is satisfactory in quality and well protected against contamination. Chlorine is added to all water prior to distribution, the North End bore hole accounting for the greater part of the consumption and standby supplies coming from the Kilham bore hole and the Spellowgate bore hole. The supplies are sufficient in quantity.

In addition five water samples were taken by this Authority from the town's mains and found to be satisfactory.

Two large Poultry Processing Factories are supplied by private bore holes. The water is chlorinated and three samples submitted for bacteriological examination showed the water to be of satisfactory quality.

	Number of houses	Approximate Population
Water supply in house By Stand Pipe By other means	1	. 2 2

Swimming BATHS

Five routine samples of waterfrom the swimming baths at the Dfiffield County Secondary Modern School were obtained and examined at the Public Health Laboratory and the results show the water to be safe and well chlorinated. Two samples of the bath water were also taken for chemical analysis and these proved to be satisfactory.

The lack of sanitary accommodation within the swimming pool enclosure caused some concern during the year.

SEWAGE AND SEWERAGE DISPOSAL

The town's sewage is treated at the Riverhead Sewage Works, the effluent being discharged into the Canal. Details of the performance of the works are to be found in the PublicHealth Inspector's Sewage Works Annual Report. Trade effluent charges are made for the treatment of sewage from five premises.

RODENT CONTROL

Only 6 'takes' were recorded during the annual test baiting of sewers, a total of 41 manholes being tested. During the year 103 visits were made to infested premises although the incidence of rat infestation within the Urban District, is fortunately, low.

INSECT INFESTATION

15 complaints were received concerning infestation of insects and 13 wasps nests were destroyed.

PUBLIC CONVENIENCES

There are 3 public convenience blocks in the Urban District, and whilst every endeavour is made to keep them clean and fit for the public to use they are never completely satisfactory due to the attention of hooligans etc. The conveniences are visited twice dailybut, although it is impossible to provide a full time attendant at each convenience, the cleanliness will never be up to standard expected by most people until this is so.

HOUSING

No. of dwelling houses in the district	2,581
Number of new houses built during the year:	* *
(a) by the Local Authority	66
(b) by other owners	111
No. of houses in course of construction at the end of the year:	
(a) by the Local Authority	-
(b) by Private Owners	37

IMPROVEMENT GRANTS

The Housing Act 1969 became law in the latter part of the year. The full impact of this legislation had not had time to make itself felt by the end of the year, but in November, the Council resolved to make discretionary grants up to the permitted maximum of 50% of the approved cost of improvements ranking for grant. Increased grants for house improvements appeared to be attracting more attention and it is hoped that this will continue. No action was taken regarding general improvement areas.

No Local Authority houses were improved.

Discretionary Grants

There were no applications received during the year.

Standard Grants	During year	Total to date
Number of separate houses for which grants have been made	21	218
Number of houses provided with		
(a) Bath or shower	19	
(b) Wash hand basin	19	
(c) Hot water supply	19	
(d) Water Closet	18	
(e) Foodstore	12	

No clearance procedure was taken under the Housing Acts, although 32 inspections were made during the year under the Housing Acts.

FOOD

Inspection of Food and Food Premises

16,813 animals were inspected during the year by the Veterinary Inspector and 100% meat inspection was maintained.

MEAT INSPECTION

Carcases Inspected and Condemned	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed Number <u>Not</u> inspected	2 , 125 None	143 None	146 None	8,068 None	6,331 None
All diseases except. Tuberculosis and Cysticerci Whole carcases condemned Carcases of which some part or organ was condemned	8. 888	5 26	4	71 80	32 857
Tuberculosis only Whole carcases condemned Carcases of which some part or organ was condemned	-	And the second s	-	-	1 77
Cysticerci Carcases of which some part or organ was condemned Carcases submitted to refrigeration Generalised and totally condemned	2 2 -	The state of the s			-

Inspections of other food stuffs totalled 16, and in all 4 tons, 3cwts. and 104 lbs. of food stuffs were condemned, the bulk of this being a large quantity of frozen food, when a large local refrigerated warehouse closed down.

Licences were issued to 18 slaughtermen and 4 slaughterhouses were also licenced.

Two complaints regarding foodstuffs were received. No statutory action was considered appropriate and warnings were issued.

Ice Cream

10 routine samples were submitted for examination. 4 were placed in provisional Grade I and 6 in provisional Grade II. Two manufacturers are registered under the Ice Cream (Heat Treatment) Regulations.

Liquid Egg Pasteurised Regulations, 1963

12 samples of liquid egg were taken under the above regulations. 1 proved to be contaminated by salmonella heidelberg, a food poisoning organism. 8 persons submitted specimens for bacteriological examination, but were not found to be infected. A follow-up sample of the liquid egg was taken and salmonella typhi-murium isolated. The 8 persons submitted further samples for examination but these were found to be clear. A further sample of liquid egg was taken and salmonella enteritidis isolated on examination.

Extensive investigations were carried out at the Producers premises within the Local Authority Area concerned. The local retailer cancelled his contract and the product is no longer being used within the district.

Food Hygiene General Regulations

Only 61 visits were able to be made to food premises during the year and although it would appear that most traders are conscious of their obligations under the Regulations, the public can further help improved conditions by only trading at those premises where the best hygiene is practiced.

The following details are requested by the Department of Health and Social Security Circular 1/70.

	Numbe r	Number fitted to comply with Reg. 16 re: Washbasins etc.	Number to which Reg.19 applies - facilities for washing food and equipment	Number of Premises fitted to comply with Reg.19
Meat Shops	8	8	8	8
Grocery and General Provisions	8	8	8	8
Mixed Grocery and Confectioner	y 14	7	- (
Sweets and Confectionery	7	3	-	-
	6	3	-	-
Greengrocers Cooked meat products	2	2	2	2
Bakers and Confectioners	4	4	4	4
Food Preparing Premises	7	3	7	7
Fish Shops	2	2	2	2
Fried Fish Shops	6	4	6	6

Food Hygiene (Markets, Stalls & Delivery Vehicles) Regulations 1966

Although few inspections were able to be made under the above regulations it did appear that some van salesmen were not aware of the requirements regarding washing facilities etc., which should be provided on the vehicles.

Poultry Inspection

The following information is required by the Department of Health and Social Security, Circular $1/70_{\bullet}$

(1) No. of poultry processing premises	2
(2) No. of visits for inspection of poultry	Nil
(3) Total number of birds processed during the	
year	880,171
(4) Types of birds processed	Fowls and Turkeys
(5) Weight of poultry condemned as unfit	Nil
(6) Percentage rejected as unfit for human	
consumption	Nil

CLEAN AIR ACT, 1956

Four complaints were received concerning nuisance from smoke emitted from two large boiler chimneys. 10 observations were made on the chimneys and informal action taken.

PUBLIC CLEANSING

A regular weekly collection of household and trade refuse has been maintained during the year.

The two rear loading vehicles gave satisfactory service on refuse collection. All refuse was disposed of at the Driffield Rural District Council's tip at Hutton Cranswick, where controlled tipping is carried out, an arrangement which is extremely convenient and amicably operated.

Salvage separation is carried on as part of the refuse collection and disposal operations. Paper, cardboard, metals and textiles are sorted from the general refuse and sold.

A bonus payment system was commenced in April, the bonus paid to the refuse collectors brought an increase in the amount of salvageable materials disposed of.

The receipt from the sale of waste paper and scrap metal etc., during the year was :-

171 tons, 3 cwts, 2 qrs. baled waste paper £ 1,412. 3. 11. Scrap metal etc., and rags 124 16. 6.

£ 1,537. - 5.
